*With the large number of submissions, our timeline for notifying authors of decisions on their papers is very tight. We, therefore, **MUST** stay on track with each milestone on our timeline. Please see the [full timeline](#) at the end of this document. We count on your timely completion of your milestones.*

Managing Reviews of a Submission

Below, you will find information on navigating the review process and the PCS system.

Key Steps in the Review Process

Overall, the ICIS 2022 review process contains several crucial steps to ensure high-quality proceedings and presentations.

1. Initial Reject

After the submission deadline expires, Review Coordinators assess papers for mainly technical issues that warrant an initial rejection (e.g., exceeding the maximum paper length, non-compliance with submission template, etc.). These papers will not be assigned to Track Chairs. Authors will be informed by the Program Chairs concerning initial rejections.

2. Track Chair Assignment

Papers that comply with the ICIS 2022 submission requirements are assigned to Track Chairs. On *very rare* occasions, papers not fitting a specific track are moved to other tracks that provide a better fit.

3. Early and Constructive Rejects

Track Chairs assign an AE for every paper, except for those that they think cannot survive the review process and will write the review report themselves. For papers assigned to them, AEs should assess each paper's scholarly contribution and potential for ICIS 2022. If the AE feels that a paper has very little likelihood of being accepted at ICIS 2022, the AE can recommend early rejection of the paper to the Track Chair without sending the paper out for review. The goal is to provide authors of such papers with early feedback and offer them the opportunity to submit their work elsewhere. If the Track Chair agrees with the AE's recommendation, the AE should provide a detailed review report to the authors in the system, pointing out why the paper, in its current form, does not have the potential for being accepted at ICIS. The Track Chair then endorses the review report, and the Program Chairs inform the authors of the decision. All other papers continue through the regular review process.

4. Review Phase

Associate Editors (AEs) assign papers to three reviewers, ensuring a diverse and also experienced review team. Each paper should be reviewed by at least one faculty member and not by a review panel comprised entirely of PhD students. Reviewers should provide detailed and constructive reviews for each paper reviewed. They should also ensure that comments to the authors and to the AE and Track Chairs are consistent with the quantitative scores and recommendations that they have entered into the review system.

5. Associate Editor Reports

Associate Editors (AEs) write a report for every paper based on the review team's comments and their own assessment of the paper. The report should be detailed and highlight the AE's views about the fundamental reasons leading to the rejection/acceptance of papers. In the unfortunate case of short or non-constructive reviews by one or more reviewers, the AE should compensate by providing a more detailed report if necessary. If the AE recommends a conditional accept of the paper, the AE should provide a comprehensive list of issues that need to be addressed by the authors to have the paper accepted at ICIS 2022, keeping in mind the short revision cycle of ICIS 2022.

6. Track Chair Decisions

The Track Chairs will review all the AE reports and reviews to prepare a final shortlist of papers recommended for acceptance from their track. As the standards of reviewers and AEs differ, Track Chairs should not depend purely on the quantitative scores provided by the review team but should read the papers and examine the qualitative comments of the review team.

7. First Decision

On the basis of the Track Chairs' recommendations, the Program Chairs will assess all submissions and make the decisions for all papers. Decisions will be communicated to the authors by the Program Chairs.

8. Revisions

In the revision process, authors have to make adjustments to their papers in accordance with the reviews and submit their paper as a camera-ready version, with author information as well as acknowledgments. The revised papers should adhere to the revision template provided for this purpose.

Once resubmitted, the revised papers will be reviewed by the Track Chairs to verify that the concerns raised by the review team, as specified in the AE report, have been addressed. If the authors fail to do so, the paper will be rejected. To accelerate the process, authors are required to provide a point-by-point response to the review packet. Final acceptance notifications will be communicated to authors by the Program Chairs.

Logging In

1. Go to the ICIS 2022 submission site: <https://new.precisionconference.com/user/login>
2. Enter your “**Username or Email**” and “**Password**” and click “**Sign in.**”
 - a. If this is your first time logging in, refer to the login email that you received from the Precision Conference System (PCS) in Feb/March OR enter the email address that you provided when you agreed to be an AE.
 - b. If you do not know your password or have forgotten it, click on the “**Reset my password**” link.

The screenshot shows the login interface for the AIS submission and review system. At the top left is a globe icon. Below it is a dark blue header with the text "AIS submission and review". The main content area contains the following text: "Sign in below to **submit** a contribution, to **sign up** as a reviewer, or to **review** assigned submissions." Below this text are two input fields: "Username or Email" and "Password". A "Sign in" button is positioned below the password field. At the bottom of the form, there are two blue links: "Create an account" and "Reset my password".

Menu Options

1. Once logged in, from the ICIS 2022 PCS home page, click **“Reviews”** and then **“Review (as a committee member)”** under the “Reviews in Progress” heading

The screenshot shows the 'Reviews' page with a navigation bar containing 'Submissions', 'Reviews', and 'Account'. The 'Reviews' section includes links for 'Volunteer to review', 'Provide areas of expertise', 'Provide sample publications', 'Provide reviewing background', 'Manage conflicts', and 'See reviewing history'. Below this is the 'Reviews in Progress' section with a 'Help' button. A table displays the following data:

Assigned	Completed	Category	Action
1	0	ICIS 2021 Test	Review (as a committee member)

2. Please note that **“Committee Member”** here is synonymous with **“Associate Editor.”**

Reviewing Initial Submissions

1. After you click on **“Review (as a committee member),”** you will see all papers assigned to you under the heading **“Submissions to Coordinate (as AE).”**

The screenshot shows the 'Committee Member' page with links for 'Send email', 'Email log', 'Email templates', 'Spreadsheet of my submissions', and 'Archive of my submissions and reviews'. Below is the 'Submissions to Coordinate (as AE)' section with a table:

Revs	Cmte	Status	ID	Submission
0/1	0/0	incomplete	100	* Test Paper for Author...

2. Click on each **paper title** from the “Submission” column to view more details about that paper.

IMPORTANT! Before assigning papers to reviewers:

- a. Ensure that there is **no conflict of interest** before initiating the review process for you or the intended reviewers. For example, if you find your own paper assigned to you or that of a colleague from the same institution or a co-author, please let the Track Chairs know. They will reassign it. The conflict of interest policies can be seen at: <https://misq.org/conflict>.
- b. In addition, do a brief review of each submission to make sure that the paper “**fits**” in your track. If you think that any of the papers assigned to you belong to a different track, please notify the Track Chairs immediately. They will work with the Program Chairs to redirect those papers to appropriate tracks.

Early Rejects

1. When prescreening papers, AEs are to identify any papers that they think should be given an **Early Reject**, without sending them to reviewers. Note: If you determine that any paper assigned to you should be early rejected due to insufficient quality, i.e., unlikely to “survive” the review process, you will need to provide a detailed and constructive review of the paper to your track chairs by **June 5, 2022**.
2. This determination needs to be made quickly (latest by **May 20, 2022**). Once you determine that you would like to recommend an early reject, please click on “**edit**” for that paper, as shown in the screen below.

Reviewer	Role	Score	Review	Action	Invitation
	AE			edit	

3. Then please click on the “**early reject**” radio button to inform the Track Chairs that you are not sending the paper out for review because you consider this a candidate for early reject. You will need to check with the Track Chairs whether they agree. So please record your comments/reasons for early reject recommendation to the Track Chairs under the “**Comments to Committee**” text box and email the Track Chair you are working with.

Edit review of 1000 - "Test Paper for Author Guide"

Early Reject?

Indicate whether this submission should be an "early reject".

- early reject
- not early reject

4. Once you enter the recommendation for an early reject, the Track Chairs will need to evaluate it. If they concur, they will recommend early reject to the Program Chairs, and you will be expected to produce a detailed review report (by **June 5, 2022**). Your deadline for early rejection recommendations to the Track Chairs is **May 20, 2022**.
5. Your deadline for providing a detailed and constructive review report is **June 5, 2022**. To do so, please enter your review in the “**Comments for Authors**” text box.

Assigning Reviewers

1. In choosing reviewers, please ensure the following. First, at least one reviewer should **NOT be a PhD student**. Second, the AIS strongly encourages diversity and inclusion in all areas. To foster this in the review process, we ask that you do **NOT limit your choice of reviewers to students or colleagues from your own institution but rather develop a broader pool of reviewers**. Third, do **NOT assign a paper to a reviewer with potential conflicts** with the authors, i.e., who is at the same institution as the authors or who has co-authored with the authors.
2. To assign reviewers, click on the paper title under the “Submission” column.
3. You will see your name listed under Reviewer. Note that your **Role** is “AE.” You will see an “Assign Reviewer” input field. Please use this to search for specific reviewers.

4. Please search for the reviewer name or email under the “**Assign reviewer**” field. If there is a reviewer match, you will be able to find the reviewer’s name and click “**Continue.**” If there is not a match, you will find that the “Assign reviewer” field is blank. Even then, click “**Continue,**” and you will be able to **create a new account** to invite your reviewer.

Note: If you assign a reviewer and later want to unassign/remove them, you will see that option too. To remove reviewers, click “**remove**” under the “Action” column, and confirm that you wish to remove the reviewer.

- Alternatively, you can look for potential reviewers that have volunteered to review for your track. You can do so by selecting **“Show potential reviewers.”** You will see the screen below.

Subject Invitation to review submission 1000 for ICIS 2021 *Year varies year after year

Message

Dear Martha,

I would like to invite you to review the following paper:

#1000 – Test Paper for Author Guide *Year varies year after year

Reviews are due on June 17, 2022. The abstract is appended below. To see the full paper, you can log on at

Please **check back to see if the reviewer has accepted your invitation.** You can keep track of the invitations by returning to the page for that submission. Once you send an email invitation, the assignment will be indicated as **[tentative]** as per the diagram below.

10. Repeat this process until you have invited enough reviewers for each submission. **Please assign three reviewers per paper.**

11. All reviewer assignments for your papers should be done by **May 18, 2022.**

Associate Editor Recommendations

1. To monitor reviews, from the ICIS 2022 PCS home page, select **"Reviews"** and then **"Review (as a committee member)."**
2. The first column to the left of each submission shows how many reviews have been done, out of the number assigned (e.g., in this screenshot, 0/1 means no review has been completed out of 1 review assigned; 1/2 would mean 1 review had been completed out of 2 assigned). The system includes color-coding; green to indicate when sufficient reviews are done and red when needed reviews are still outstanding.

- c. You may choose: “Expert,” “Knowledgeable,” “Passing Knowledge,” or “No Knowledge” under **Expertise.**
- d. Please do not include your recommended decision in your “Comments for Authors” – because the Track Chairs or Program Chairs may come to a different conclusion.**
- e. There are several award categories – see [Awards Criteria and Processes](#). Please consider if the paper is deserving of a nomination for a best paper award. Please indicate your nominations in the form as follows.

Would you nominate the paper for any of the below awards:

- Best Completed Research Paper for the Track
- Best Short Paper for the Track
- Best Student Completed Research Paper (Student must be First Author)
- Best Theory Development Paper (Completed Research Papers only)

- f. If you are **nominating a paper for a best paper award**, please provide 2-3 sentences explaining why you think the paper should be nominated, in your “**Comments to Committee**” field in your AE report.
5. Also, you may indicate whether a paper meets the criteria (qualifies) for the **Kauffman-Sponsored AIS awards**. You may find the links to the description of these awards by clicking the following: [Kauffman Best Paper Award](#) and [Kauffman Best Student Paper Award](#).

Please indicate if the paper qualifies for the Kauffman Sponsored Best Paper Award on Information Systems, Innovation, and Entrepreneurship:

Nominating a Best Reviewer

We would like to recognize the contributions of reviewers who have provided high-quality and timely input. Please take the time to **identify such a reviewer from among those that provided inputs on papers that you handled**. After you have submitted your reports, **email your Track Chairs (on your own – not through PCS) nominating this reviewer, with your reasons**.
